

Montecito is pleased to offer

# Mini Maestros

We are excited to expand our offering with a new twist on an old favorite. Our Music & Movement class "Mini Maestros" will be taught by Miss Ashleigh, whose musical experience includes five years of private voice instruction and ten years of working with children. In addition to being an accomplished musician, Ashleigh works with young children as an ABA therapist specializing in autism spectrum disorders, and has accompanied several preschoolers to Montecito in that capacity. Most recently Ashleigh has begun working as a consultant with schools helping teachers use music to improve the learning process.

*Mini Maestros* is designed to introduce preschoolers to basic musical concepts through movement, games and personal experimentation. Students will explore tempo & volume and discover their inner maestro as they create their own music! The course will feature rhythm sticks, percussion, and voice culminating in a performance featuring the students' unique creations during the last class.

Thursdays, March 4 thru May 13, 2010

*(no class April 15 - Spring Break)*
